## MEMORANDA.

*Population.*—The last quarterly estimate shows that the population is still increasing at a higher rate than for many years past. During the nine months ended 30th September the total increase was 36,450, or at the rate of 3·2 per cent. per annum. Of the increase, 19,248 was due to excess of births over deaths, and 17,202 to excess of arrivals.

*Trade.*—The imports during October were valued at £3,602,554, which shows an increase of £651,923, as compared with the corresponding month of last year. For the nine months there was an increase of £5,041,878, or nearly 19 per cent., as compared with last year. The direct oversea imports during October amounted to £1,832,102, as compared with £1,651,657 in 1906; the total for the ten months was £16,947,022, an increase of £2,375,289 over the corresponding figures for 1906. There were increases in most of the principal articles—apparel and soft goods, hats and caps, iron and metal manufactures, machines, tea, and timber. Sugar shows a falling-off.

The oversea exports for October amounted to £3,737,052, and show an increase of £834,592, compared with the corresponding month of last year. For the nine months there was an increase in the oversea exports of £2,568,464, or 11 per cent., as compared with last year. Nearly all the principal articles show large increases; horses, leather, frozen beef, rabbit skins, and timber show decreases. Separating merchandise from gold, the exports of the former during the ten months increased by £5,913,329, but the latter decreased by £3,344,865.

*Railways.*—The report on Railways for the quarter ended 30th September, shows that compared with the corresponding quarter of last year, the net earnings increased by £80,598, nearly all classes of traffic contributing to the improvement. Compared with the September quarter of last year the earnings decreased by  $\frac{1}{2}$ d., and the expenditure by  $1\frac{1}{2}$ d. per train mile.

*Mineral Production.*—The gold yield during October was 24,075 oz. crude, equal to 21,667 oz. fine, valued at £92,034. The value of the gold produced during the ten months was £867,131, which shows a decrease of £108,966 as compared with the corresponding period of 1906.

*Prices.*—The general index number for October was the lowest for this year. The index number for pastoral produce was 1,265; for metals, 1,308; and for all articles, 1,309. There was a fall in silver and tin during the month, but a large increase in wheat and flour.

*Meteorology.*—The rainfall during October was again considerably below the average in all the districts of the State, with the one exception of the Northern Tableland. The temperature was, generally speaking, above the average.

*Land Selections.*—During October 191 new settlers applied for 112,703 acres. Since the beginning of the year the number of new settlers has been 2,109, and the area applied for 1,373,170 acres. The original area set apart for residential settlement since the 1st January has been 1,165,892 acres, representing 907 blocks.
